

POS Protect + with Acumera or PDI

CHS Payment Solutions is the single source for your credit card processing needs, including protection for your Point of Sale (POS) and in-store data.

Due to extensive feedback, CHS Payment Solutions is excited to expand our **POS Protect +** program to include a new vendor that will administer POS Protect + on behalf of CHS. POS Protect + will now be available through either **Acumera** or **PDI**. It is now up to each merchant to decide which provider they would like to utilize for the POS Protect + program. Please see below for an overview and comparison of both programs to help you decide which program is the better fit for you.

Common Program Features	POS Protect +
	Managed firewall
	PCI Portal for SAQ assistance and external vulnerability scans
	Certified MNISP for secure POS help desk access remote access
	Cellular backup to keep credit card processing going when the internet goes out

Program Differences	POS Protect + with PDI	POS Protect + with Acumera
